"It is quite bright, and has a long straight tail. It is in the constellation of the Whale, and sets about three hours after the sum."

Collector Morton has written a letter to the editor of the Beston Pilei, denying the statement which had appeared in several papers, that he had written to the post-master general not to appoint a man to the office of deputy postmaster at Bridgewater, because he was a Catholic. I did not believe Ex-Governor Morton such a fool as to write the letter imputed to him, for any man of common sense must know that the postmaster general would give no weight to such an objection. The Collector says, the fact that he employs a number of Catholics in the various offices at his disposal, is sufficient to show that he entertains no sectarian views in regard to the qualifications offices of men for office.

Complimentary concerts and benefits, in said of the sufferers by the destruction of the Howard Athensum, are the order of the day. This evening there is to be a grand musical and dramatic melange, at the Museum, for the benefit of the actors who were throw out of situations by the fire. Mr. Kimball, the manager, tenders the grasuitons use of his house for this purpose, and the entire company volunteer their services. At the Odeon, there 'will be an excellent musical entertainment this evening, for the benefit of the orchestra lately attached to the Athensum. The musical taient of the city has been generously tendered on this occasion, and a full house is anticipated. The elocution class of the Boston Lyceum are to give Mr. Stark, one of the recent sufferers, a benefit on Monday evening, at the same place, the friends of Mr. Brougham, the popular comedian and author, are to see what they can do in his behalf. He had just commenced an engagement at the Howard, under flattering auspices, when the fire occurred, by which he lost considerable in wardrobe, &c. MORE CONFIRMATION

THAT CONSUMPTION

CAN BE CURED.

THIS is to certify, that I have been afflicted with a cough and
shortness of breath from infancy. I took a heavycold, which
settled upon my lungs, and which my physician, after using
various remedies, pronounced incurable. I had a pain in my
chest and left side, bad cough, fever, night sweats, contiveness,
detangement of my atomach and bowels, great weakness and
prostration of strength. Having heard of the many cures effected
by Scheuck's Pulmonic Syrup, I determined to give it a fair
trail. It loosened my congh and relieved my breathing, and
after using it some time, it began to recover. I am at this time
perfectly well and hearty, and attribute my recovery solely to
the Pollmonic Syrup, as the means by which I was restored to
health. It is an excellent medicine, and I would recommend
all to ry if, believing that if the directions are followed, they
will be cared as I have been.

DOCTOR ARNT'S

RELIEF SALVE.

FOR WUUNDS, Bruises, Burns, Chronic Sores or Swellings, Piles, Ulcert and Inflamed Breasts, it is also a sovereign remedy for Blotches on the Face, and Chapped or Rough Skin. It will soon render it transparent, clear and soft as velvet.

[Extract of a letter from Doctor Wood.]

I am highly gratified to hear that the "Relief Salve," prepared by Dr. Charles Arat, is being introduced to the public. It possesses merits which will speedily give it a high rank in the confidence of your customers. It is decidedly superior to any other preparation with which I have say acquaintance.

"I have made frequent use of it with the greatest pessible success, and freely and cheerfally commended it to others. I cannot withold an expression of surprise at the happy effects I have known it to produce in several cases of inflamed breasts and nerves."

(Extract from a letter written by a female to her relative.)

"Monday morning called at Mrs. Hulber's. She had an Beredo long and so much with her breasts, that I expected from what we nich heard, to find her dead. They had, however, applied 'Arnt's Relief Salve' that night and the next day, and to my great satusfaction, I found her entirely relieved. After applying it twice as I had directe', the milk started a stream; they put the child to her breasts, and they are sow both doing very well indeed They call me the Good Samaritan for mentioning the salve to them. I am very giad of being the means of doing some good in the world."

Doctor Hallock—Sir: That the great virtue of "Arnt's Relief Salve" may be known to the afficted, I deem it my duty to state a few facts connected with my own case. About twenty years ago I received an injury from the fragment of a bursting cannon striking me in my groin; from that up to the present to all the "sure curse," and highly
